

A PROJECT PRESENTATION ON ONLINE CAB

Presented by:

Pandya Raxit (E.No11034211021)
Patel Krunal (E.No11034211035)

Presented to :
ACHARYA MOTIBHAI PATEL INSTITUTE OF COMPUTER STUDIES
GANPAT VIDYA NAGAR,KHERVA-384012

Project Profile

PROJECT PROFILE

OBJECT	CONTENT
Organization	“Bit Sansar Cyber Services” Sattelite, Ahmadabad
Project Title	“Online Cab”
Objective	This System provide Facility Of Online Cab Booking car on Rent.
Front End	Php 5.3.5
Back End	My SQL 5.5.8
Others Tools	Adobe Dream viewer 8.0, Wamp Server2.4, Notepad++
Internal Guide	Mr.Krunal D Trivedi
Group No	21

EXISTING SYSTEM

- In existing system customer can not book the car online on rent.
- The Person from outside country need suffer lots of problem.
- Customer have no information about area or perfect location to create a travelling problem.

NEED FOR NEW SYSTEM

- User can book the car online on rent.
- In new system user can get facility as per their requirement.
- User can get car on rent and driver details online.
- User can also get a car as a self driver.
- User can get online confirmation mail for car booking.

FUNCTIONAL SPECIFICATION

Module of the system:

- Registration
- Login
- Online Booking Car
- Mailing
- Services
- Payment

USER OF THE SYSTEM

❖ Admin:-

- Admin can manage overall website and user Profile.
- Add/delete/modify user information.
- Manage Facility Like: Pick up & Drop
- Admin can manage cab details
- Sending & receiving mail.
- To generate the various reports.

❖User:

- User Can Register in site.
- User can search car details.
- User can modify his/her profile.
- User can book the car online.
- User can pay online payment.
- User can give feedback.

Hardware and Software Requirement

Hardware and Software Requirement (MINIMUM)

Client side Hardware Requirement

- PROCESSOR :- Processor 1.6 GHZ
- RAM :- 1 GB
- Hard Disk :- Minimum 20 GB

Client side Software Requirement

- OPERATING SYSTEM :- Window XP or Any Equivalent Operating System
- WEB BROWSER :-IE 5.0 or Any Compatible Browser

Server side Hardware Requirement

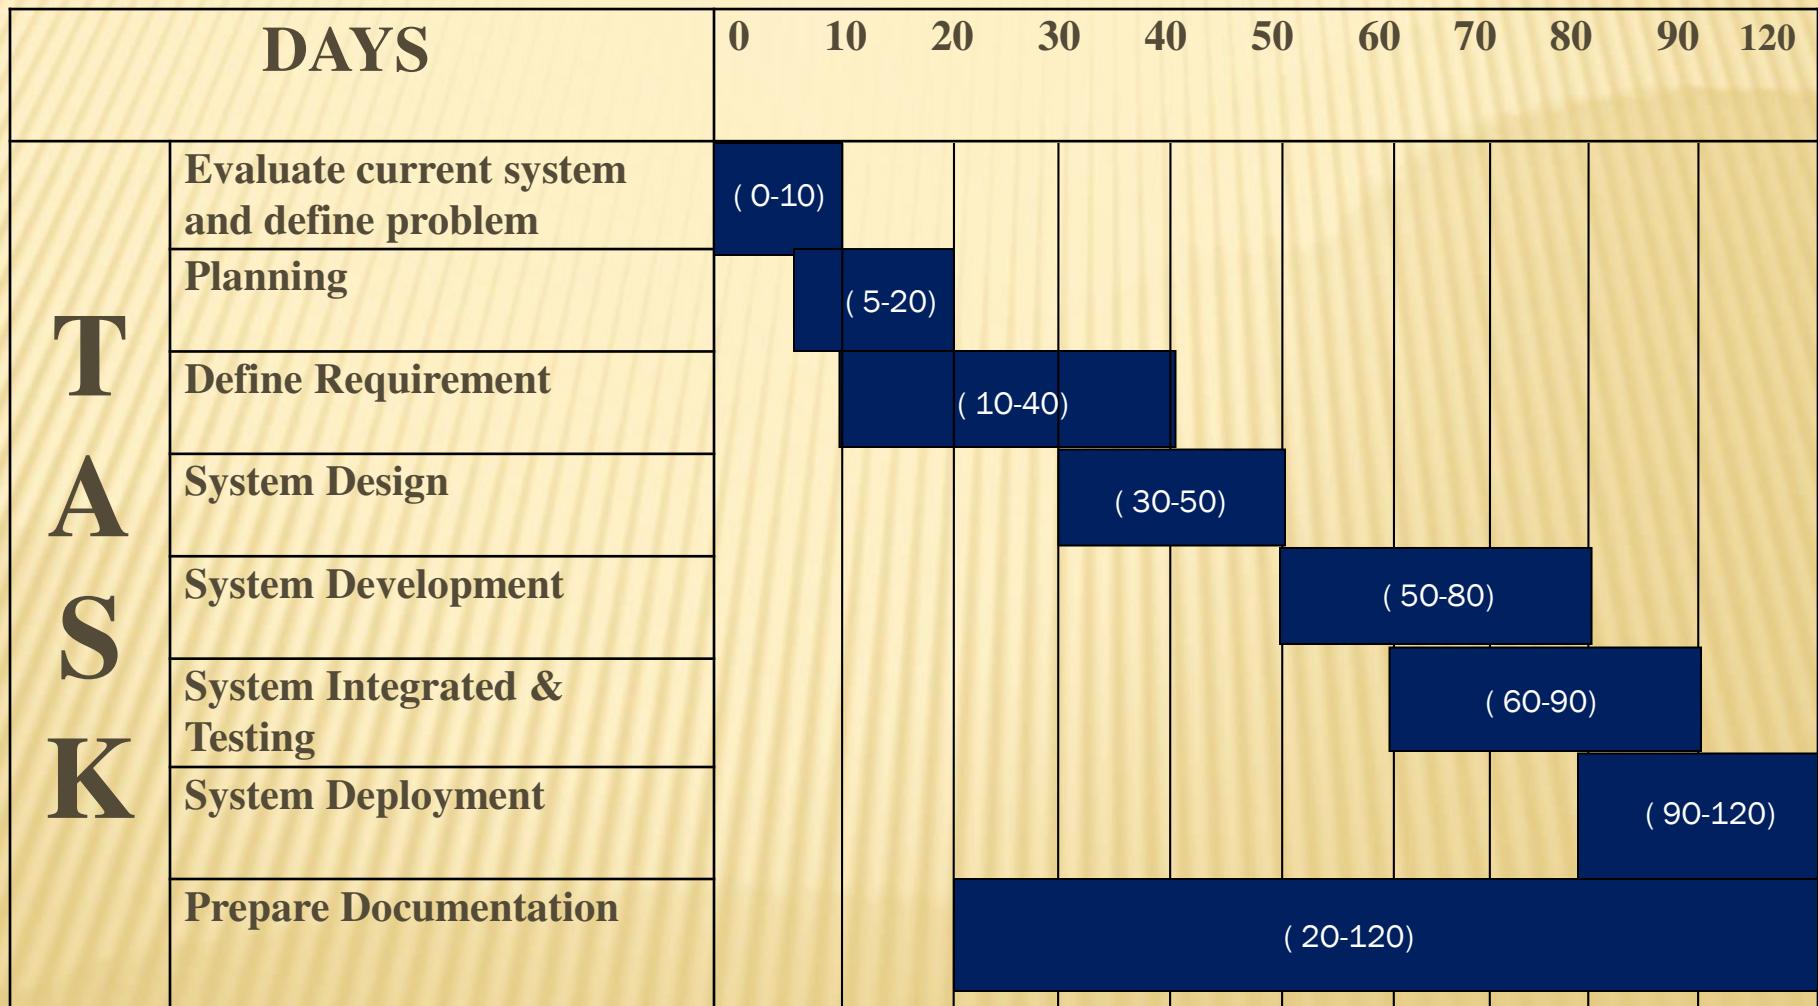

- PROCESSOR :- 1.6 GHz
- RAM :- 1 GB
- HARD DISK :- Minimum 20GB

Server side Software Requirement

- OPERATING SYSTEM :- Window NT or other equivalent
- FRONT END :- PHP 5.3.5
- BACK END :- My Sql 5.6.12
- WEB SERVER :- Apache Tomcat 2.2.17

Data Dictionary

Table Name: Login

Description: This table is used to store all the details of login.

No	Field Name	Data type	Size	Constraints	Description
1	uid	Int	5	Primary key	Store the user id
2	uname	Varchar	15	Not null	Store the User name
3	password	Varchar	15	Not null	Store the password

Table Name: Country_master

Description: This table is used to store all the details of country.

No	Field Name	Data type	Size	Constraints	Description
1	country_id	Int	5	Primary key	Store the country id
2	country_name	Varchar	15	Not null	Store the country name
3	status	Enum	-	-	Store the status of country active or inactive

Table Name: State_master

Description: This table is used to store all the details of state.

No	Field Name	Data type	Size	Constraints	Description
1	state_id	Int	5	Primary key	State id unique
2	country_id	Int	5	Foreign key	Store the country id
3	state_name	Varchar	15	Not null	Store the state name
4	status	enum	-	-	Store the status of state active or inactive

Table Name: City_master

Description: This table is used to store all the details of city.

No	Field Name	Data type	Size	Constraints	Description
1	city_id	Int	5	Primary key	City id unique
2	state_id	Int	5	Foreign key	Store the State id
3	country_id	Int	5	Foreign key	Store the Country id
4	city_name	Varchar	15	Not null	Store the City name
5	status	enum	-	-	Store the status of city active or inactive

Table Name: Kilometer

Description: This table is used to store all the details of kilometer.

No	Field Name	Data type	Size	Constraints	Description
1	r_id	Int	5	Primary key	Id of kilometer
2	city_id	Int	5	Foreign key	Store the city id
3	loc_id	Int	5	Foreign key	Store the location id
4	km	Int	5	Not null	Store the kilometer

Table Name: Location_master

Description: This table is used to store all the details of location.

No	Field Name	Data type	Size	Constraints	Description
1	loc_id	Int	5	Primary key	Store the location id
2	city_id	Int	5	Foreign key	Store the city id
3	loc_name	varchar	20	Not null	Store the location name

Table Name: CMS

Description: This table is used to store all the details of Contact us and about us.

No	Field Name	Data type	Size	Constraints	Description
1	cms_id	Int	5	Primary key	City id unique
2	cms_title	Varchar	50	Not null	Store the cms title
3	description	Text	-	Not null	Store the Description

Table Name: User_Registration

Description: This table is used to store all the details of user registration.

No	Field Name	Data type	Size	Constraints	Description
1	uid	Int	5	Primary key	Store the uid
2	uname	Varchar	15	Not null	Store the User name
3	password	Varchar	15	Not null	Store the password
4	sname	Varchar	15	Not null	Store the Surname
5	fname	Varchar	15	Not null	Store the First name
6	address	Text	-	Not null	Store the full Address of user
7	gender	enum	-	Not null	Store the Gender
8	email	Varchar	30	Not null	Store the email id of user
9	city_id	Varchar	5	Foreign key	Store the City id
10	state_id	Varchar	5	Foreign key	Store the State id
11	country_id	Varchar	5	Foreign key	Store the Country id
12	Pincode	Int	6	Not null	Store the Pincode
13	contact_no	Int	15	Not null	Store the Contact no of user

Continue.....

No	Field Name	Data type	Size	Constraints	Description
14	seq_que	varchar	50	Not null	Store the security question
15	seq_ans	varchar	50	Not null	Store the security answer

Table Name: Driver_master

Description: This table is used to store all the details of driver.

No	Field Name	Data type	Size	Constraints	Description
1	dri_id	Int	5	Primary key	Driver id unique
2	dri_name	Varchar	15	Not null	Store the Driver name
3	birth_date	date	-	Not null	Store the Driver birthdate
4	license_no	varchar	20	Not null	Store the driver license no
5	address	text	-	Not null	Store the driver address
6	contact_no	Int	15	Not null	Store the Contact no of driver
7	email	Varchar	30	Not null	Store the email id

Table Name: Subclass_master

Description: This table is used to store all the details of sub class.

No	Field Name	Data type	Size	Constraints	Description
1	subclass_id	Int	5	Primary key	Store sub class id
2	class_type_name	Varchar	20	Not null	Store class type name ex:bussiness, normal, economy
3	status	enum	-	-	Store the status of subclass active or inactive

Table Name: Car_master

Description: This table is used to store all the details of Car.

No	Field Name	Data type	Size	Constraints	Description
1	car_id	int	5	Primary key	Car id unique
2	dri_id	int	5	Foreign key	Store the driver id
3	r_id	Int	5	Foreign key	Id of kilometer
4	charge_id	int	5	Foreign key	Store the charge id
5	uid	int	5	Foreign key	Store user id
6	car_type	Varchar	15	Not null	Store the car type ex: verna,swift
7	car_model	Varchar	15	Not null	Store the car model ex: petrol diesel
8	price	Float	15	Not null	Store the min rent of car
9	car_plat_no	Varchar	10	Not null	Store the Plat number of car
10	car_images	Varchar	50	Not null	Store the Car images
11	Subclass_id	Int	5	Foreign key	Store the sub class id
12	Status	Enum	-		Store the status of car active inacive

Table Name:Booking_master

Description: This table is used to store all the details of booking the car.

No	Field Name	Data type	Size	Constraints	Description
1	book_id	Intger	5	Primary key	Store the book id
2	Car_id	Intger	5	Foreign key	Store the car id
3	Subclass_id	Integer	5	Foreign key	Store the Subclass id
4	r_id	Int	5	Foreign key	Store the kilometer id
5	charge_id	Int	5	Foreign key	Store the charge
6	uname	Varchar	15	Not null	Store the user name
7	email	Varchar	30	Not null	Store the user email id
8	pick_up_date	Date	-	-	Store the Pick up date
9	pick_up_time	Time	-	-	Store the Pick up time
10	pick_up_city	Varchar	15	Not null	Store the Pick up city
11	loc_id	Int	5	Foreign key	Store the Location id
12	sub_location	Varchar	50	Not null	Store the Sub location

Continue.....

No	Field Name	Data type	Size	Constraints	Description
13	pick_up_address	Text	-	Not null	Store the Pick up address
14	drop_location	Varchar	50	Not null	Store the Drop location
15	No_of_hour	Intger	5	Not null	Store the no of hours
16	start_from	Varchar	25	Not null	Store the starting from
17	Travel_to	Varchar	25	Not null	Store the Travel to
18	date_of_travel	date	-	-	Store the Date of travel
19	date_of_return	date	-	-	Store the Date of return
20	reg_date	date	-	-	Store Registration date

Table Name: Charges

Description: This table is used to store all the details of charges.

No	Field Name	Data type	Size	Constraints	Description
1	charge_id	Int	5	Primary key	Store the charge id
2	subclass_id	Int	5	Foreign key	Store the sub class id
3	car_id	Int	5	Foreign key	Store the car id
4	charge	Int	5	Not null	Store the Per kilometer charges

Table Name: Payment_master

Description: This table is used to store all the details of payment.

No	Field Name	Data type	Size	Constraints	Description
1	payment_id	Int	5	Primary Key	Store payment id
2	uname	Varchar	15	Not null	Store the uname
3	card_type	enum	-	Not null	Store the card type
4	net_banking	text	-	Not null	Store the bank name
5	car_model	varchar	20	Not null	Sore the car model
6	contact_no	int	15	Not null	Store the user contact no of user
7	price	float	-	Not null	Store the car min rent

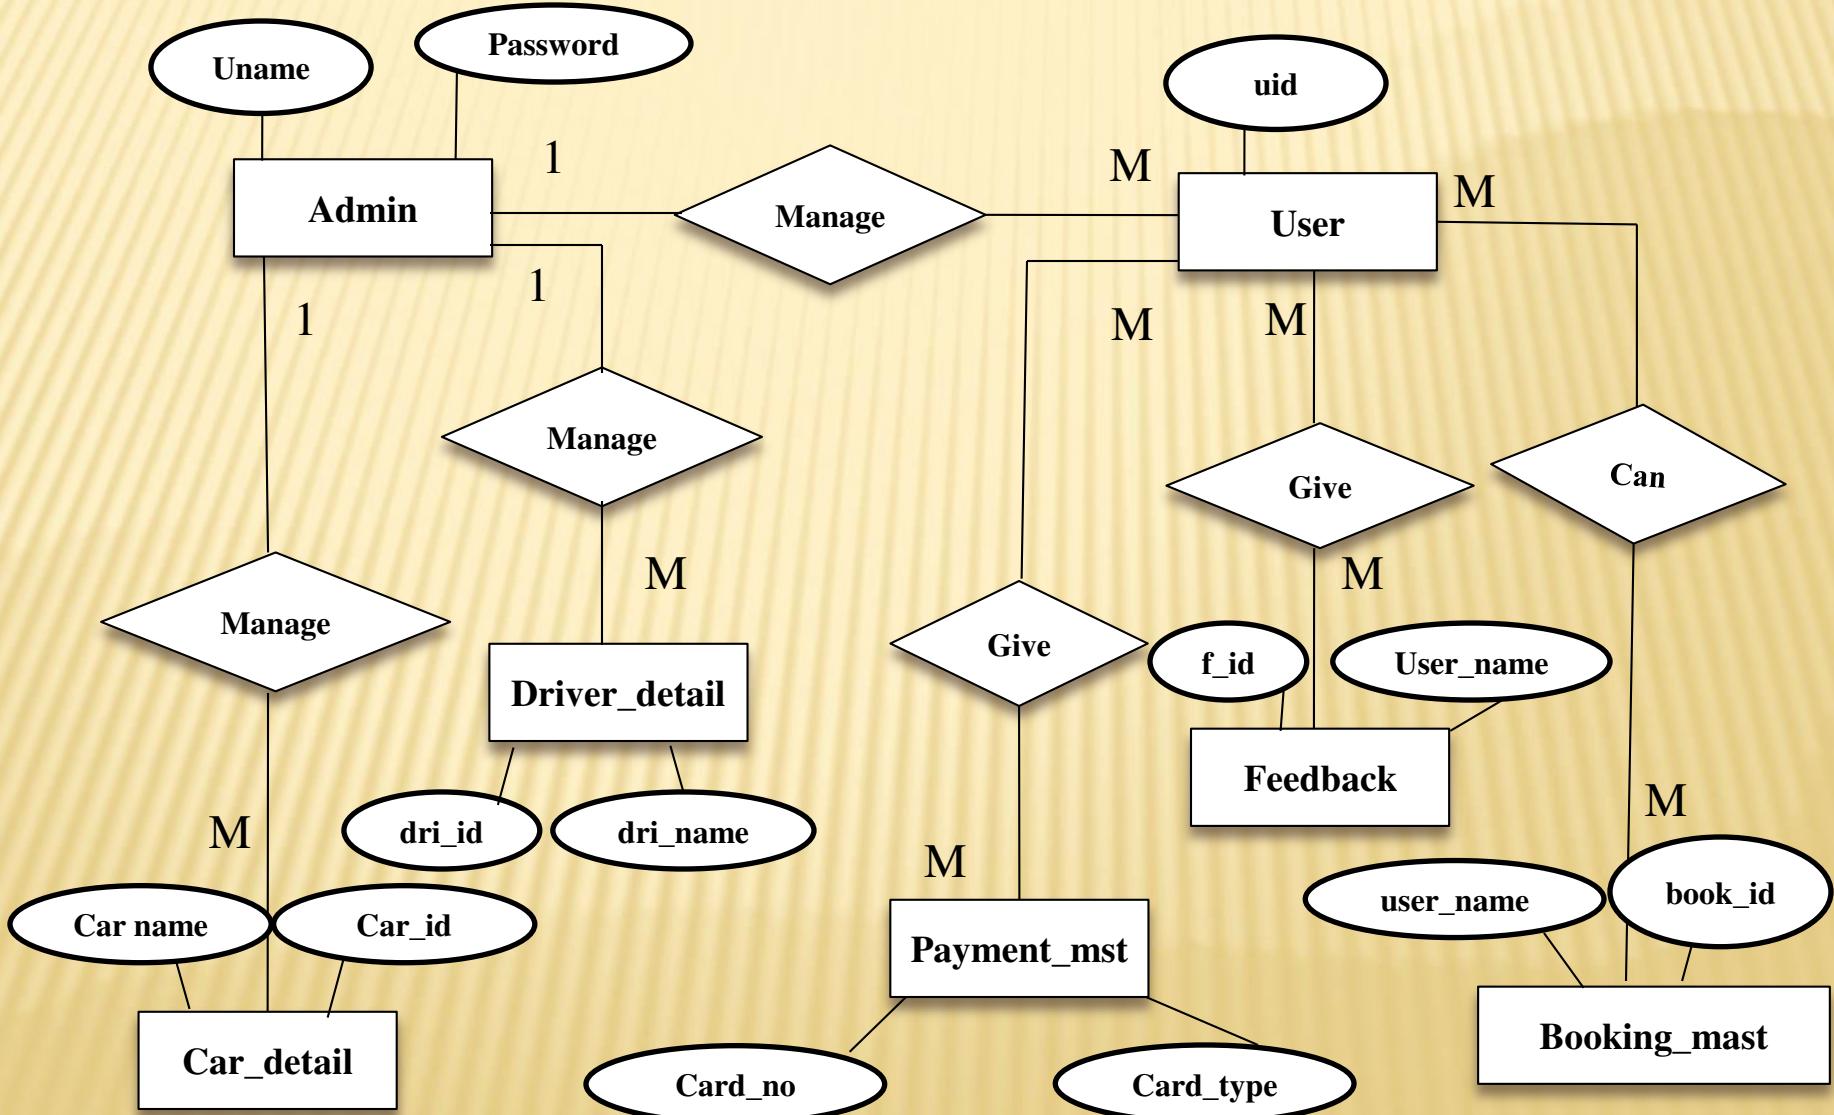

Table Name: Feedback

Description: This table is used to store all the details of feedback.

No	Field Name	Data type	Size	Constraints	Description
1	feedback_id	Int	5	Primary key	Feedback id unique
2	uid	Int	5	Foreign Key	Store the user id
3	name	Varchar	15	Not null	Store the user name
4	email	Varchar	30	Not null	Store the user email id
5	contact_no	Int	15	Not null	Store the Contact no
6	description	text	-	Not null	Store the Description

The screenshot shows a web browser window for 'Firefox' displaying the homepage of 'Crazy Cab.com'. The title bar says 'Untitled Document'. The address bar shows 'localhost/online_cab/'. The page features a yellow header with the 'Crazy Cab' logo, which includes a stylized car wheel and the word 'CRAZY CAB' in a flame-like font. Below the header, there's a navigation menu with four buttons: 'HOME PAGE', 'REGISTER', 'ABOUT US', and 'CONTACT US'. On the left side, there's a 'User Login' form with fields for 'Username' and 'Password', and buttons for 'Login' and 'Forgot Password?'. The main content area features a large image of a silver Toyota Innova car. The background of the page has a light beige color with some decorative elements.

Ahmedabad's walled city is a living testimony to its heritage of crafts as women walk by in dazzling embroidered garments and flashing ethnic silver jewellery. Traditional Ahmedabad combines mosques of inspired workmanship, wooden Jain temples, unique stone stepwells and houses with ornately carved wooden balconies and window screens.

City Information

The most convenient entry point into Gujarat is through the metropolis of Ahmedabad. The city contains some very fine museums, the Calico Museum of Textiles being considered among the world's finest. Ahmedabad's walled city is a living testimony to its heritage of crafts as women walk by in dazzling embroidered garments and flashing ethnic silver jewellery. Traditional Ahmedabad combines mosques of inspired workmanship, wooden Jain temples, unique stone stepwells and houses with ornately carved wooden balconies and window screens.

Modern Ahmedabad, just across the River Sabarmati spanned by four bridges, is a showpiece of contemporary architecture with designs by Le Corbusier, Louis Kahn and the best known Indian architects. Ahmedabad is a convenient base for a number of excursions, Modhera being the best known. 106 km away, this is one of the very few sun temples in the country.

Places of Interest in Ahmedabad

Ahmed Shah's Mosque, Balvatika, Teen Darwaza and Bhadra Fort, Daria Khan's Ghummat, Siddi Sayyad's Mosque, Gita Mandir, Swami Narayan Temple, Hathisinh Mandir, Jhulta Minar, Jumma Masjid, Kankaria Lake, Rani Sipri's Mosque and Tomb, Rani Roopmati Mosque, Rauza of Shah Alam, Sabarmati Ashram, Siddhi Sayyad Mosque, Dada Hari Vav.

Museums & Art Galleries in Ahmedabad

- » Calico Museum of Textiles, Calico Mills,
- » Shreyas Folk Art Museum.
- » Gandhi Smarak Sangrahalaya, Gandhi Ashram Sabarmati.
- » L.D. Institute of Indology, Navarangpura.
- » National Institution of Design.
- » Tribal Research & trg. Museum, Ashram Rd.
- » N.C. Mehta Art Gallery, Sanskar Kendra, Paldi.
- » Kite Museum, Sanskar Kendra.
- » Veechar Utensil Museum, Vasna Tolnaka.
- » Natural History Museum, Kankaria

Excursions in Ahmedabad

Adalaj Vav 19 km, Lothal 80 km, Patan 113 km, Nal Sarovar 71 km, Sabarmati Gandhi Ashram 6 km, Gandhi Nagar 25 km, Modhera (Sun Temple) 106 km.

Best time to travel

Ahmedabad is basically a hot place that enjoys three main seasons, namely summers (March to June), winters (November-February) and monsoon (July-September). Ahmedabad became the base camp for the Indian freedom struggle. Ahmadabad is now regarded as a national pilgrimage, a symbol of non violence and peace Mahatma Gandhi built the Sabarmati Ashram on the outskirts of the city.

User Detail Page

The screenshot shows a web browser window with three tabs open, all titled "Untitled Document". The active tab's address bar shows "localhost/online_cab/admin/user_detail.php?uid=59". The browser interface includes standard navigation buttons (back, forward, search, etc.) and a toolbar.

The main content area displays the "Online Cab - Admin Panel" header and a "User Details:" section. Below this, a table lists user information:

User Name :	krunal
Surname:	patel
First Name :	krunal patel
Address :	16 shukan bungalows mehsana
Gender :	male
Email :	krunal@gmail.com
Country :	India
State :	gujarat
City :	mehsana
Pincode :	384002
Contact no :	9909590001

A green "back" button is located at the bottom of the details box.

User Report in excel

AdminCompanyReport-3 - Microsoft Excel

The screenshot shows a Microsoft Excel spreadsheet titled "AdminCompanyReport-3 - Microsoft Excel". The ribbon menu is visible at the top, showing tabs for Home, Insert, Page Layout, Formulas, Data, Review, View, and Add-Ins. The Home tab is selected. The formula bar below the ribbon displays the cell reference "A1" and the text "User report". The main content area contains a table with 9 rows and 11 columns. The columns are labeled: User Name, Sur Name, First Name, Address, Gender, Email, Country, State, city, Pincode, and Contact No. The first row is a header with the title "User report" centered above it. The data rows contain various entries such as "krunal patel", "Raxit kumar Pandya", "suraj desai bholu", etc., along with their respective details like address, gender, email, and contact numbers.

User report											
	User Name	Sur Name	First Name	Address	Gender	Email	Country	State	city	Pincode	Contact No

Post Implementation Review

- User can book the car online on rent.
- In new system user can get facility as per their requirement.
- User can get car on rent and driver details online.
- User can also get a car as a self driver.
- User can get online confirmation mail for car booking.

Future Enhancement

Following Expansion can be done:

- Payment online By PayPal.
- We will provide sms for booking confirmation.
- Provide GPS System.
- We will add two new functionality like provide car for self drive or international on rent.

Bibliography / References

- ✓ During the development of our system, we have taken the reference from various books and journals, which we would like to mention in this section.

Book Referred:

Author	Title
Larry Ullan	Visual Quick Pro guide PHP6 and MYSQL5(For Dynamic Website).
Steven Holzner	PHP: The Complete Reference
The Converse and Joyce Park	PHP5 and MYSQL BIBLE
